

A warning to every ICE agent from your employers.

We The People, who you work for, whose salaries we pay: **we give the orders.** We do not take orders from our servants.

We love our immigrant neighbors and do not care if they have papers or not.

We hate violent thugs, who commit assaults, kidnappings, and murders. Today, you have an old stupid tyrant protecting you, but he won't be there forever – or much longer.

Watch what you say. Watch what you do. You are being monitored and judged. You will face punishment, and the punishment will fit your crimes.

Your last best hope is to put down your weapons, resign from ICE, and publicly confess your crimes on video. And beg for forgiveness.

Time is running short. What'll it be, “tough guy”?

In dead earnest,

WE THE PEOPLE
